

ANSHUL TRAVEL AGENCIES

Executive Business Insights Report

Executive Summary

This report analyzes 10,000 customers to evaluate travel behavior, purchasing patterns, booking preferences and customer demographics. 4,277 customers purchased travel plans, resulting in a 42.8% purchase rate. Online booking, leisure travel, flights, and customers aged 26–45 are the strongest business drivers.

Business Performance

- Total Customers: 10,000
- Purchased Plans: 4,277
- Purchase Rate: 42.8%
- Customers with Children: 6,000
- Frequent Traveler Purchases: 2,540
- Traveled Abroad: 1,560
- Credit Card Holders: 2,900

Customer Insights

Middle and Upper-Middle income customers generate the highest purchases. Customers aged 26–45 are the most valuable segment. Leisure contributes nearly half of all purchases, followed by Family Visit and Business travel. Married, Graduate and Salaried customers dominate bookings.

Travel Behaviour

Flights are the preferred travel mode followed by Train, Own Vehicle and Bus. Online booking is the dominant booking method, indicating strong digital adoption.

Key Business Insights

- Strong 42.8% conversion rate.
- Leisure is the biggest revenue driver.
- Family tourism has high growth potential.
- Domestic travel dominates.
- Frequent travelers are ideal for loyalty programs.
- International travel remains a premium growth opportunity.

Recommendations

1. Increase conversion of non-purchasing customers.
2. Focus on 26–45 age group and middle-income customers.
3. Expand international packages.
4. Strengthen family travel offerings.
5. Enhance digital booking experience.
6. Launch loyalty and referral programs.
7. Grow corporate travel business.

Final Conclusion

Anshul Travel Agencies has a solid customer base and strong growth opportunities. By focusing on digital sales, customer retention, premium offerings and targeted marketing, the company can significantly improve revenue and long-term customer value.
